### Disclaimer

The information provided on this report document is only for general information and should not be used as a reason to invest. Solidity CheckUp Team will take no payment for manipulating the results of this audit. Solidity CheckUp Team does not guarantees that a project will not sell off team supply, or any other scam strategy.

Smart contracts are deployed and executed on the blockchain platform. The platform, its programming language, and other software related to the smart contract can have its vulnerabilities that can lead to hacks. The audit can't guarantee the explicit security of the audited project / smart contract.

# **Contract Details**

| Token              | Contract Details for 20.06.2022            |
|--------------------|--|
| Contract Name      | LiquidityGeneratorToken                    |
| Contract Address   | 0xEFbd9EfCc9fe7482AE82ae70fAb2208E37751a94 |
| Total Supply       | 10,000,000                                 |
| Token Ticker       | CROBA                                      |
| Decimals           | 18   |
| Token Holders      | 8  |
| Transections Count | 11   |
| Liquidity Fee      | N/A  |
| Tax Fee            | N/A  |
| Uniswap V2 Pair    | N/A  |

### **Token Details**

#### Details

Buy Fees: N/A

Sell Fees: N/A

Max TX: N/A

Max Sell: N/A

#### Honeypot Risk

Ownership: Owned

Blacklist: Not Detected

Modify Max TX: Not Detected

Modify Max Sell: Not Detected

Disable Trading: Not Detected

#### Rug Pull Risk

Liqidity: Not Detected

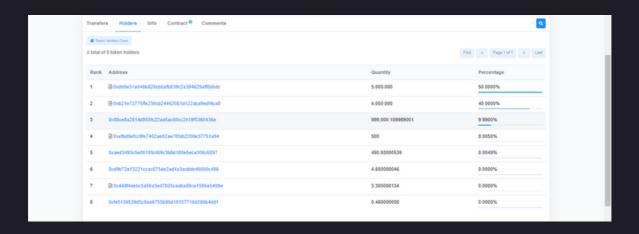

Holders: Not Detected

# **Audit Overview**

Security Issue

(0) High

0 Medium

(3) Low

O Critical

### **Audit Overview**

#### Low severity issues

1. LiquidityGeneratorToken contract:

The functions "excludeFromReward, excludeFromFee, includeInFee" should be made external instead od public.

Unless they are also going to be called internally which I do not see they do not need to be public functions.

### **Owner Privileges**

- Contract owner can transfer ownership.
- Contract owner can renounce ownership.
- Contract Owner can change fees.
- Contract Owner can change exclude or include people from paying fees or receiving rewards.
- Contract Owner can change set values for other key functions within the contract.

## Conclusion & Analysis

- Smart Contracts within the scope were manually reviewed and analyzed with static tools.
- Audit report overview contains all found security vulnerabilities and other issues in the reviewed code.
- Found no Critical issue during the first review.
- Liquidity pair contract security is not checked due to out of scope

Kindly check the disclaimer above and note, the audit makes no statements or warranties on business model, investment attractiveness or code sustainability. The report is provided for the only contract mentioned in the report and does not include any other potential contracts deployed by Owner.
