# Disclaimer

The information provided on this report document is only for general information and should not be used as a reason to invest. Solidity CheckUp Team will take no payment for manipulating the results of this audit. Solidity CheckUp Team does not guarantees that a project will not sell off team supply, or any other scam strategy.

Smart contracts are deployed and executed on the blockchain platform. The platform, its programming language, and other software related to the smart contract can have its vulnerabilities that can lead to hacks. The audit can't guarantee the explicit security of the audited project / smart contract.

Background

Solidity CheckUp, they chose "The Web3 Project" and performed the audit of the The Web3 Project (WEB3) token's smart contract:
https://bscscan.com/address/0x333FD139cAeF6Aa31 056cC905987b77B1044d259#code
The purpose of the audit was to achieve the following:
• Ensure that the smart contract functions as intended.
• Identify potential security issues with the smart contract.

The information in this report should be used to understand the risk exposure of the smart contract, and as a guide to improve the security posture of the smart contract by remediating the issues that were identified.

Owner Privileges

- Contract owner can't mint tokens after initial contract deploy.
- Contract owner can't disable trading.
- Contract owner can't set / change buy & sell taxes.
- Contract owner can't change tx amount

Conclusion & Analysis

- Smart Contracts within the scope were manually reviewed and analyzed with static tools.

- Audit report overview contains all found security vulnerabilities and other issues in the reviewed code.

- Found no issue during the first review.

- Liquidity pair contract security is not checked due to out of scope

⚠️

Kindly check the disclaimer above and note, the audit makes no statements or warranties on business model, investment attractiveness or code sustainability. The report is provided for the only contract mentioned in the report and does not include any other potential contracts deployed by Owner.
